The work, on site

Task 1 — Silver maple removal, rear yard

Both maples come down in sections and rig out over the pool deck. The split union on the eastern tree is why neither one gets felled whole.

Task 2 — Bur oak crown clean, front walk

Climbing access only, no crane. Deadwood is concentrated in the south leader.

Before we start

A few things that make the day go smoothly.

1. **You don't need to be home.** We've done this thousands of times. Don't take a day off for it — we don't collect payment on the day, and we don't expect it same-day.
2. **Clear the route to the tree.** The driveway, path and yard need to be open enough for us to carry branches out.
3. **Move anything you'd hate to lose.** Statues, pots, birdfeeders, lights, furniture, barbecues. Tell us about anything you couldn't move, and about any sprinkler lines or septic tanks, before we start.
4. **Let your neighbours know.** Pass along our number if they have questions — have them reference your name and address.
5. **Mow beforehand if you can.** We can't do a thorough cleanup of small branches in long grass.
6. **Schedules move.** The work is hard on bodies and equipment, and weather decides a lot of it. Breakdowns and delays happen, we often run a little behind, and we'll keep you updated as the week goes.
7. **Emergencies come first.** If an existing customer calls in storm damage or an unexpected hazard, we'll revise the schedule to handle it.
8. **What causes a delay.** Unsafe weather — rain, snow, wind, storms. Equipment down for repair. An injured or ill crew member leaving us shorthanded. We'll reschedule when any of these make the work unsafe.

Questions about any of this before the crew arrives? Call 1-877-542-5551 and ask for Tom.
